

Use of Photography & Video

It is the policy of Holy Trinity After School Club to seek written permission from parents/guardians during the registration period in order for staff to take images of the children or to allow public photography/videoing of plays/events.

The photos taken by staff are used for display, publication purposes. Parents have the opportunity to identify the circumstances in which the image can be taken or used.

Where parents have concerns these are taken on board. In some circumstances images are available for use on displays but not on the website or in publications.

In the event that parents are unwilling to provide such permission the principal will meet with them to clarify the nature of their concerns and to explain why the school would wish to take and use such images.

We make no use of CCTV technology on the premises.
