Holy Trinity Preschool Additional Needs Policy

Places for children with additional needs are available, provided that the preschool has the resources for the children and that we can also provide effective education and care of the other children.

Parent/Carers are advised to inform the Preschool Leader if their child has special needs or is receiving help, e.g. speech Therapy, Occupational Therapy or has been assessed by the Psychology Services. Information shared will be taken into account when meeting the needs of this child.

If there are any particular problems relating to a child, parents are encouraged to contact the child's Preschool Leader.

If there are concerns and it is believed that the child would benefit from expert help, consultation will take place with the parent/carer before a referral is made to the relevant service.

Where appropriate, staff will consult with school staff, including the SENCO to seek advice on how best to meet the needs of the child.
